

Skye Parkway Open Space - April Invasive Species Removal

City of West Linn Parks & Recreation | <http://westlinnoregon.gov/parksrec>

Join us at Skye Parkway Open Space to help remove blackberry vines and other invasive species in order to restore the habitat for native plants and wildlife. Volunteers have worked for over 13 years removing blackberry vines and other non-native vegetation, planting native plants and trees on nearly 5 acres. You will have an opportunity to contribute to the health of this lovely natural space while getting a workout. Activities include: cutting and removing blackberry vines targeting a .5 acre parcel.

What's Provided: Pruners and shovels will be provided, but it is helpful to bring your own leather gloves. Snacks & Beverages will be provided.

What to Bring: Face mask optional per new CDC guidelines. Refillable water bottle & snacks in a backpack if desired.

What to wear: Comfortable boots, long pants & long sleeve shirt. Dress appropriately in layers, for the weather conditions (rain gear is encouraged this time of year).

Parking: Free street parking at the site on Skye Parkway.

Bathrooms: No public bathroom on site. A nearby homeowner will provide access to their private bathroom upon request.

Accessibility: The ground is uneven, steep, and can be muddy and slippery, so caution is advised on trails and work area. Unfortunately, not suitable for volunteers with ADA needs.

Sign Up

SUNDAY, APRIL 3, 2022 FROM 9:00am - 12:00pm
